1 Overview

2 Syntax

The syntax of λ_{ref} is given below.

$$\begin{array}{l} v ::= () \\ | n \in \mathbb{N} \\ | b \in \mathbb{B} \\ | x \\ | \lambda x. e \end{array}$$
$$\begin{array}{l} e ::= v \\ | e_1 e_2 \\ | \text{let } x = e_1 \text{ in } e_2 \\ | \text{if } e_1 \text{ then } e_2 \text{ else } e_3 \\ | \text{ref } e \\ | !e \\ | e_1 := e_2 \end{array}$$
